

I understand that the FCC is seeking to expand the LPFM service to take priority over current FM translator service. I wanted to express how valuable the FM translator service is in our area, particularly as it relates to K-LOVE radio (in Northern Colorado it's on 91.1). K-LOVE presents a positive, hopeful, Christian message that makes a tremendous impact on our community. Until very recently, K-LOVE was the only option of this kind in our area. Even with the addition of another station operating out of Denver, K-LOVE serves a very necessary and useful purpose in our community.

If K-LOVE were taken off the air, there would be no other similar station to meet the niche K-LOVE serves (the other Christian station is geared particularly towards teens/20-somethings). K-LOVE serves our community by providing hopeful and positive messages, providing kid-safe music and programming, and offering encouragement and a moral perspective daily, 24-hours a day. PLEASE DON'T TAKE AWAY THIS POSITIVE MESSAGE FROM OUR COMMUNITY!
